**NEW DERIVATIVES OF 1,3-DIMETHYL-1H-PYRIMIDINE-2,4-DIONES:****SYNTHESIS ON REQUEST**

---

OTAVA, the company that specializes in combinatorial chemistry, fluorescent probes and drug discovery technologies, carries a number of libraries of compounds.

We have a collection of more than 270,000 compounds for screening purposes and we also offer about 75,000 building blocks. *Many of our building blocks are unique and they are available from our company only.* Building blocks are offered in multi-gram (1-50 g) quantities (purity higher than 95%).

**Now we are pleased to offer you new derivatives of 1,3-dymethyl-1H-pyrimidine-2,4-diones:**

Cat. number **1115613**  
MW **265.3**

Cat. number **1115614**  
MW **279.3**

Cat. number **1115615**  
MW **263.3**

Cat. number **1115616**  
MW **281.3**

Cat. number **1115617**  
MW **241.2**

Cat. number **1115618**  
MW **211.2**

Cat. number **1115619**  
MW **225.2**

Cat. number **1115620**  
MW **267.3**

Cat. number **1115621**  
MW **197.2**

Cat. number **1115622**  
MW **225.2**

Cat. number **1115624**  
MW **240.2**

.....  
**Do not see a compound of your interest?  
We can synthesize a derivative you need.  
Please contact us for more information.**  
.....

If you would like to download our catalogues to search for compounds you interesting in, please register on our website at <http://www.otavachemicals.com> and proceed to download section

Our compounds can now be found in the eMolecules online substructure searchable database at <http://www.otavachemicals.com>

Our compounds can also be searched in the SPRESIweb online structure and reaction database at <http://www.spresi.de>
